Automotive – Percent of Revenue – \$1.25

BNSF Automotive Rules and Policies Guide - Automotive Fuel Surcharge

BNSF may impose a percent of revenue fuel surcharge due to increasing fuel costs as stated in the [BNSF Automotive Rules and Policies Guide](#).

All transportation services of motor vehicle shipments will be subject to any Automotive Fuel Surcharge implemented by BNSF or imposed on BNSF, regardless of price authority (including all contracts and agreements). Percent-of-Revenue Automotive Fuel Surcharge is applicable on all BNSF motor vehicle shipments.

The Fuel Surcharge for the current month is based on the [U.S. Average Retail On-Highway Diesel Fuel \(HDF\)](#) from two months prior. For example, the fuel surcharge assessed in July would be based on the monthly average HDF price from May.

The Fuel Surcharge table reflects the HDF price and associated fuel surcharge. Automotive-related boxcars or other type of traffic subject to Rules 6100 are subject to the Carload Fuel Surcharge ([Carload Percent of Revenue Program Details](#)). BNSF will not issue a credit or refund if the HDF price falls below \$1.25. The surcharge is subject to change. Fuel surcharge questions should be forwarded to your BNSF Marketing Representative.
